IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Patent Application of
Lorenz CAMENZIND et al.
Serial No.: 10/519,875
Filed: March 4, 2005

New York, New York
Date: August 25, 2005
Group Art Unit: 3724
Examiner: ---

For: POCKET KNIFE WITH A WEIGHING ELEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

SUBMISSION

Sir:

Submitted herewith is a copy of a search report issued by a patent searching authority other than the PTO and the cited art together with a form listing the same for the convenience of the Examiner.

DE 479 802 is relevant and should be considered because it is cited in the International Search Report. No translation is available. Note that it was cited against PCT application claim 1 before that claim was further amended according to Article 19 of the PCT, to describe the weighting element as being capable of being folded out of the body of the knife. Hence, the reference does not anticipate present U.S. claim 1.

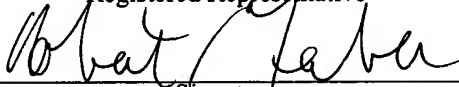

The pocket knife shown in the drawing of the DE reference is moveable around the axis a) and is divided into a shorter arm b) and a longer lever arm c). The mounting arm e) for holding the pocket knife for the weighing purpose can be pivoted, around the axis a). At one end of the mounting arm, a mounting ring f) is arranged and at the opposite end a needle d) is arranged to show the volume within two arcuated scales i) and k). The free end b) of the pocket

knife is designed as a clamping means, so that for instance a letter q) can be clamped in the segment m) to be weighed, using the pocket knife.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents P.O. Box 1450, Alexandria, VA 22313-1450, on August 25, 2005
